**ORDER**

Many regulations have been enforced in the State during the general lock down to contain the spread of Novel Corona Virus disease (COVID-19). Since majority of the offices are opting "Work from Home" post the outbreak of the disease, uninterrupted coverage for meeting the official requirement is necessary. For getting high speed network connectivity, conversion from 3G to 4G is essential, which would be possible by upgrading the radio equipment in the existing mobile towers. But it has come to the notice of Government that the up-gradation of telecom infrastructure is pending in some of the tower locations due to various reasons.

2) Government have examined the matter in detail and are pleased to permit the corresponding Telecom Service Providers to upgrade the network from 3G to 4G in the tower locations appended as Annexure-I to this order. The field level works should be done with the minimum number of staff/workers and strict precautionary measures should be followed against COVID-19, as ordered by Governments from time to time.
