Chief Minister of Kerala on 20-12-2008

MATSYA KERALAM

(2008-2009)

The State Level Steering Committee of the 'Matsya Keralam' project decided to implement the programmes in brackish water area as the first phase during 2008-2009. Accordingly necessary directions have been issued to all coastal district officers to constitute various committees and to take urgent steps for completing the survey and technical survey in brackish water areas. The ADAK has given instructions to ensure quality shrimp seed through conducting PCR tests.

Implementation of 1st phase started on 20.11.2008 after completing technical survey, training to Extension officers, Aquaculture Co-ordinators, shrimp farmers etc. For providing insurance protection to the shrimp culture, the Department of Fisheries carried out various discussions with Insurance Companies and the Oriental Insurance Company agreed all norms prescribed by the department and sanction has accorded by the Government of Kerala to introduce the insurance scheme.

For identifying culture problems including shrimp diseases and also to take urgent mitigation measures, the Government of Kerala accorded sanction to constitute a Technical Committee (Disease Monitoring and Surveillance Committee) and accordingly the Committee conducted sittings, workshop and discussions with farmers, visited various farms etc and suitable instructions have been issued.

The 1st phase in brackish water area covered shrimp culture, mussel farming, fin fish culture and crab farming. About 654 numbers of Fish Farmers Clubs were formed all along the State and 768 Aquaculture Co-ordinators were selected by various Local bodies during the period. Details of culture, number of Local bodies participated and number of beneficiaries etc are included in the report.

Even though the aim of the project during 1st phase was to implement diversified aquaculture in 1000 Ha of brackish water area, the Local bodies and farmers were warmly welcomed the project and could implemented more than 2000 Ha within the stipulated time.

I take this occasion to congratulate all especially the Local Body Authorities and staff of Fisheries Department to compose the 1st phase of 'Matsya Keralam' project as a grand success.

Thiruvananthapuram
09.09.2009

P.I. Sheik Pareeth IAS
Director of Fisheries

'MATSYA KERALAM'

*An Integrated project for the
Development of Inland Fisheries and Aquaculture in the State with support
of Local Self Governments*

Abstract of the project

As per the Government Order No. GO(MS) No. 37/08/F& PD dated 28.6.08, the State Government have approved the project of 'Matsya Keralam' aimed at increasing inland fish production from the current level of 75000 tonnes to 2 lakh tonnes over a period of three years. In order to achieve this; added emphasis has to be given for the development of inland fisheries and aquaculture for the productive utilization of inland water bodies hitherto lying by and large idle and under exploited.

Components of the proposal

The major components of the proposal are the following.

1. Programmes for diversification of freshwater aquaculture in inland sector.
2. Programmes for diversification of brackish water aquaculture.
3. Programmes for the development of infrastructure in inland sector.
4. Programmes for the development of extension and training.
5. Programme for marketing support.

Selection of Beneficiaries

The beneficiaries under the project will be individual farmers, farmers groups, farmer's co-operatives, Padasekhara Samithis, lassies of water bodies, Local Bodies, owners of holy ponds, NGOs and Other Departments having water bodies.. The selection of beneficiaries will be carried out by a committee headed by the President of the Local Self Government and Matsya Bhavan Officer/Authorised fisheries Officer as Convenor. The selected list of beneficiaries will be forwarded to the District Approval Committee (DAC) headed by Chairperson, District Planning Committee and District Fisheries Officer as Convenor.

Project Implementation

During the first year of the project survey of suitable ponds and tanks will be organised, with the active participation of the local self government. Culturable ponds identified by Local bodies will be leased out to interested farmers groups/societies, such farmers' groups / societies will be eligible to become beneficiaries of this project. The Local body can also take up the project in their water bodies. Intensive training on various aspects of fish/ shrimp culture will be imparted to farmers at local level.

Role of Local Self Government

The farms found suitable for fish culture will be prepared for fish/ shrimp culture. Pond preparation practices like de-weeding, pond clearing, reclamation of ponds, water inlet- outlet arrangements etc. will be done by the beneficiaries themselves.

Good quality fish/ shrimp seed will be made available for stocking in the ponds. Reclamation/ renovation subsidy, Seed, feed and manure will be provided free of cost to the farmers during the first year. The seeds required for the programme will be procured from Government farms, Seed Rearing Groups, Seed Banks FFDA sponsored hatcheries and Matsyafed hatcheries.

After seeding, fish / shrimp rearing practices will be undertaken by the farmers groups/ societies. The water management, manuring, feeding, growth monitoring etc. will be carried out under the guidance of the Government Agency and Fisheries Department.

Final stage of the programme will be the harvesting and marketing of the cultivated fish/ shrimp, under the supervision of local Panchayats.

Training and extension programmes.

Human Resource Development Programmes (HRDP) will be organised under the project such as (a) Resource person's training programme, (b) Farmer's training programme, (c) Entrepreneurship development programme and (d) Organisation of study tours for farmers. Resource persons and farmers training programmes will be organised with the funding support from National Fisheries Development Board (NFDB) through NIFAM. Selected farmers will be trained on various aspects of

scientific fish culture, spawn rearing, fish seed production etc. Stipend for the farmers during training and travel expenses/ field visits will be given.

Role of Department Agencies in implementing the project

1. Agency for Development of Aquaculture in Kerala (ADAK)
2. Brackish water Fish Farmers Development Agency (BFFDA)
3. Fish Farmers Development Agency (FFDA)
4. Agency for Fisheries Resource Management (FIRMA)
5. Matsyafed

The above agencies are responsible for implementing the project, according to the direction of the State Level Steering Committee (SLSC).

Panchayat level Farmers Clubs

Panchayat level farmers clubs will be promoted to improve management practices, information exchange and extension as well as to facilitate timely supplies of quality inputs, crop insurance cover and product sale. Priority attention will be given for capacity building of these farmers to improve local management of aquaculture. Panchayat level farmers clubs will be taken into confidence for facilitating implementation of Good Management Practices (GMP). Local body will select a qualified fish farmer / youth / Rtd Scientist/ Rtd Fisheries Officer as the Co-ordinator (Aquaculture) from that Panchayat area to organize Farmers Club and he can effectively co-ordinate with different programmes of aquaculture within that Panchayat and also for assisting the local body for preparation of various aquaculture projects of the Local Body.

Monitoring and Evaluation

To co-ordinate the implementation of various programmes under Matsya Keralam project at State level, a State Level Guidance Council (SLGC) with the Hon'ble Minister for Fisheries as Chairman and Secretary to Government as member Convenor.

A State Level Steering Committee (SLSC) will be constituted under the Chairmanship of the Director of Fisheries and convenor ship of the Special Officer.

The District Level Steering Committee (DLSC) will be constituted with the District Panchayat President as Chairman, District Collector as Executive Director and District Fisheries Officer as Convenor.

The Panchayat Level Steering Committee (PLSC) headed by the President of the Local Self Government and Matsya Bhavan Officer/Authorised Officer as convenor.

Linkages of Matsya Keralam

Matsya Keralam programme is an integrated project for the development of Inland Fisheries and Aquaculture in the State with support of Local Self Governments. The beneficiaries under the project will be individual farmers, farmers groups, farmer's co-operatives, Padasekhara Samithis, lassies of water bodies, Local Bodies, owners of holy ponds, NGOs and Other Departments having water bodies. The selection of beneficiaries will be carried out by a committee headed by the President of the Local Self Government. The programme is implementing with so many other schemes and programmes sanctioned by State and Central Governments. The special linkages of the Matsya Keralam programme are shown below.

1. Centrally Sponsored Scheme on Development of Inland Fisheries and Aquaculture

Matsya Keralam project is implementing in the State with firmly attached to the existing norms of Centrally Sponsored Scheme on Inland Fisheries and Aquaculture. All components under Matsya Keralam will be provided assistance in the form of subsidy for identified activities to individual beneficiary, self-help group, women group, and fishermen societies etc as per the approved norms.

2. National Fisheries Development Board (NFDB)

Skill up gradation is an important component of any production-oriented activity. It assumes more importance when the inherent technical skills/capacity of the intended beneficiary is low and thus can be an important attribute of success or failure of the activity. As per the NFDB's objectives of increasing fish yield levels from the existing ponds and tanks and to bring in new areas under the fold of aquaculture can be adversely impacted if the technical skills of the farmers/ entrepreneurs are

inadequate. Therefore, to meet this important requirement of human resource development in aquaculture under Matsya Keralam project fund already allotted to State Fisheries Department from NFDB has utilised to impart training to the fish farmers/ entrepreneurs.

3. Rashtriya Krishi Vikas Yojana (RKVY)

Matsya Keralam programme envisages to integrate various activities of aquaculture and to provide infrastructure linkage for the development of inland fisheries and aquaculture with the support of Local Self Governments. The programme is implementing in all 14 districts of the State over a period of three years from 2008-09. 1000 Ha of inland water areas are targeted to be brought under diversified aquaculture activities. In Matsya Keralam programme, Panchayat Level Fish Farmers Clubs will be promoted to improve management practices, information exchange and extension as well as to facilitate timely supplies of quality inputs, crop insurance cover and product sale. Priority attention will be given for capacity building of these farmers to improve local management of aquaculture. Panchayat level fish farmers clubs will be taken into confidence for facilitating implementation of Good Management Practices (GMP). Local body will select a qualified fish farmer / youth / Rtd Scientist/ Rtd Fisheries Officer as the Co-ordinator (Aquaculture) from that Panchayat area to organize Farmers Club and he can effectively co-ordinate with different programmes of aquaculture within that Panchayat and also for assisting the local body for preparation of various aquaculture projects of the Local Body. The Aquaculture Co-ordinators in the above Local Bodies have to be given suitable remuneration for effective co-ordination with the farmers, Department, Agencies, hatcheries, market etc. Hence under Rashtriya Krishi Vikas Yojana Programme, administrative sanction has accorded for Rs. 480 lakhs to provide suitable remuneration to the Aquaculture Co-ordinators. Formation of Panchayat Level Fish Farmers Club is envisaged in all Local bodies to create concrete supporting system to the fish farmers of that locality.

4. National Rural Employment Guarantee scheme (NREG)

The Government of Kerala have given special instructions to all the District Collectors in the Annual Conference of District Collectors and Head of the Departments held on 3rd and 4th November 2008 to take necessary steps to renovate the ponds and tanks selected for implementing Matsya Keralam Programme under NREG. The following programme can also be taken up by effective linkage of NREG and Matsya Keralam.

- With 'Matsya Keralam' project – implemented during 2008-09 to 2010-11 - wages for cleaning/pond preparation for aquaculture can be taken up with NREGS
- New rain water harvesting ponds/check dams could be constructed in NREGS that can be utilized for fish culture with assistance of FFDA
- Assistance for training & fish farming will be provided by FFDA
- With 'Matsya Keralam'- project – wages for bund formation, cleaning/pond preparation for aquaculture can be taken up with NREGS
- Integrated Rice - fish/shrimp farming taken up by ADAK can be linked with NREGS
- Wages for bush clearing in fallow rice fields/ ridge formation/sluice construction can be taken up in NREGS
- Haritha is limited to Tsunami affected villages
- Additional areas can be brought in for ridge formation for agro fishery development
- Massive ridge formation and bio shield planting for development of agro fishery development of non-tsunami affected villages can be taken up in NREGS.

5. Vidarbha Package

In the farmer's relief package announced by Hon. Prime Minister from the Vidarbha region of Maharashtra on 1st of July, 2006, three districts from Kerala, viz, Wayanad, Palakkad and Kasaragod have been selected which had reported farmers' suicide. Accordingly proposals have submitted and administrative sanction obtained from Government. The proposal envisages livelihood programme through inland fish culture, generation of

alternate employment and marketing through fisheries in three districts in the State: Palakkad, Wayanad and Kasaragod, where a number of farmers are forced or prone to commit suicide. Even, agricultural farmers could be provided with an opportunity for supplementary income through fisheries by way of development/creation of water bodies for fish culture activities. This proposal was prepared based on the guidelines of Government of India under the macro management approach on the Centrally Sponsored Scheme in Fisheries Sector for the 10th plan. Instructions have been given to the District Fisheries Officers of the above districts to link the programme with Matsya Keralam programme to get more benefits to the farmers.

6. Coastal Aquaculture Authority Act

The Coastal Aquaculture Authority Act, 2005, encompasses the farming of shrimp, prawn, fish or any other aquatic life under controlled conditions in ponds, pens, enclosures or any other brackish water bodies, but excludes fresh water aquaculture. Under the provisions of the Act, coastal areas include areas of land within a distance of two kilometres from the High Tide Line of seas, rivers, creeks and backwaters. The Act is expected to give an impetus to sustainable development of aquaculture and to an environment conducive for species diversification. The Act says that no person shall carry on, or cause to be carried on, coastal aquaculture in coastal area or traditional coastal aquaculture in the traditional coastal aquaculture farm which lies within the Coastal Regulation Zone unless the farm has registered with the Authority. Accordingly instructions have been issued to all coastal District Fisheries Officers to take urgent steps to get registration to all farms coming under Matsya Keralam from the Coastal Aquaculture Authority of India.

7. Agricultural Technology Management Agency (ATMA)

ATMA, a new extension-training mechanism following the concept of participatory approach for sustained development of agriculture/allied areas are being implemented in various states of India. ATMA is a society of key stakeholders involved in agricultural activities for sustained agricultural development in the district. Thus ATMA at district level would be increasingly responsible for all technology dissemination activities at

the district level. All the lines departments in agricultural sector including fisheries would be the key participants in the system. In Kerala all the districts would be covered by this scheme. The programmes and procedures concerning district-wise Research-Extension activities would be determined by an ATMA Governing Board (GB) to be implemented by its Management Committee (MC). One of the first tasks ATMA is to facilitate the preparation of Strategic Research and Extension Plan (SREP) of the district.

In this context, all District Fisheries Officers are directed to contact Principal Agricultural Officers of the district and fully participate in the activities of ATMA, by being members of ATMA Governing Board and Management Committee and to scoop out the possibilities to link the training programmes of Matsya Keralam with the activities of ATMA programme. They are to ensure the participation of themselves and the competent technical officers in all the orientation and training programmes of ATMA and take active role in preparation of the SREP of the district. The key activities/priorities in fisheries sector and its integration with agriculture/allied areas of the district are to be ensured in SREP.

8. State 'Food Security Mission'

Food Safety is a growing concern across the world. There is an increasing need to provide greater assurance about the safety and quality of food to consumers. Accordingly the State Food Security Project has been approved as per G.O.(P)No.30/2008/plg dated 07.07.08 in the State. Aquaculture is currently one of the fastest growing food production enterprises in the country. In view of the stagnating yields from capture fisheries and increasing demand for fish and fisheries products, aquaculture is poised to increase fish production and will continue to strengthen its role in ensuring food security and poverty alleviation. Aquaculture is a dynamic field where revolutionary changes in the realm of technology have taken place over the years. It is well recognized that diversification of farming and farming practices have important role in sustainable development of aquaculture. Diversification in aquaculture is a need of time. The project

Matsyakeralam envisages different culture systems in aquaculture area. Hence Matsya Keralam programme is linked with the Food Security Mission programme.

9. State Plan Schemes for the development of Inland Fisheries sector

In addition to the on going schemes for the development of inland fisheries and aquaculture, the State Government have provided an additional amount of Rs. 150 lakhs in the Budget during 2009-10 to meet the subsidy assistance to the aqua culturist those who are continuing the culture under Matsya Keralam programme in second year.

10. Local body Plan schemes

As per the approved norms, the subsidy assistance to the aqua culturist those who are continuing the culture under Matsya Keralam programme in second year will be met equally by State and Local Bodies. Accordingly the project of aquaculture continuing farmers will be submitted to the Local Body concerned to share the subsidy assistance.

11. Agriculture and Animal Husbandry Department schemes

Under Matsya Keralam programme, priority is given to integrated fisheries programmes. One Paddy one fish programme, Shrimp farming in Pokkali field, Duck- pig- fish farming etc. are coming under the programme. For which the implementing agencies are directed to ensure the Agriculture and Animal Husbandry Department to link various schemes.

12. Link with Irrigation Department

In the State, the irrigation Department owns a large number of irrigation tanks and check dams. These water spread areas can be leased out to SHGs or fish farmers' societies by the Irrigation Department for conducting fish culture under Matsya Keralam programme.

13. Link with Panchayath and Revenue Departments

Government have identified brackish water area and freshwater area for prawn culture and fish culture. Often times the water spread area has been used for aquaculture by the people based on adhoc lease. Generally one year lease is given for taking up aquaculture. Short term lease given

either by the Panchayats or Revenue Department or any other department is not providing enough security to the fish farmers to approach the financial institutions for availing credit. In the case of fish culture taken up in public water bodies the banks insist on lease of these water bodies in favour of the farmers. Moreover in the absence of sufficient credit absorption to fisheries development has not taken up in these areas. Therefore Government consider it necessary to frame land leasing policy for leasing out the Government land on brackish water and freshwater facilitating the farmers to show the lease as collateral security for availing credit from the financial institutions. Accordingly Government have accorded sanction to lease out the Panchayat/Local Bodies' ponds for Fish Culture/Fisheries Development as per the guidelines approved.

14. FAO-Responsible Fisheries

Matsya Keralam programme is envisaged to implement eco-friendly as per the instructions prescribed by FAO's Responsible Fisheries. Directions have issued to the implanting agencies to follow the concept of Hazard Analysis and critical point (HACP) in aquaculture products at different levels from production to marketing.

15. State and Central Fisheries Institutions

A large number of technically qualified people who can act as consultants to the fish farmers at the Panchayat/Municipality level are required for constant monitoring to achieve better result. The Department of Fisheries is not in a position to mobilise so much personnel. About 210 students and alumni of various Fisheries Educational Institutions like the College of Fisheries (KAU), School of Industrial Fisheries and School of Marine Science (CUSAT) Department of Aquatic Biology and Fisheries (KU) and (MGU), were requested to serve voluntarily as Technical Consultants (Voluntary Technical Corps) through out the culture period.

Marine Product Export Development Authority (MPEDA), Central Marine Fisheries Research Institute (CMFRI), National Institute of Fisheries Post Harvest Technology and Training (NIFPHATT) etc were also requested for imparting new technologies and marketing assistance to Matsya Keralam programme.

As per the G.O.(Rt) No. 58/09/ F&PD dated 03.02.2009, Government have accorded sanction to constitute a Disease Monitoring, Control and Surveillance (MCS) Committee to suggest the ways and means for disease alerts, disease diagnosis and prevention. In case of reporting disease problem from anywhere in the State, the Committee will take urgent action to inspect the site, collect the specimen and evaluate the situation for suggesting effective measures to control the spread of disease in a most effective and responsible manner. In that Committee, Scientists from various Central and State Institute are members.

16. Government Agencies working in Fisheries sector

Matsya Keralam programme will be implemented by the Department of Fisheries in association with the Local Bodies. The programme envisaged to implement in 700 Local Bodies, all Municipalities and Corporations of the State through the Agency for Development of Aquaculture in Kerala (ADAK), Fish Farmers Development Agencies (FFDA), Brackish water Fish Farmers Development Agencies (BFFDA), Fisheries Resource Management society (FIRMA), and Matsyafed. The above agencies are responsible for implementing the project, according to the direction of the State Level Steering Committee (SLSC).

It is also decided to link various schemes in the development of inland fisheries and aquaculture of the above agencies with Matsya Keralam programme. Accordingly, 'Oru Nellum Oru Meenum', development of shrimp farming in Pokkali field, scampi farming in kole lands, Ornamental fish farming etc was linked.

17. Public and Private fish/shrimp seed production centres

The quality fish seed is a vital input for the development of aquaculture .The fish shrimp seed of required quantity and quality is to be made available for farming at the right time. Adequate emphasis has given for the decentralisation of fish seed production through the involvement of farmers groups in fish seed rearing at local level. The State Level Steering Committee of Matsya Keralam decided only PCR tested seeds shall be stocked for farming and selected ADAK as the Nodal Agency to ensure quality shrimp/fish seed. ADAK convened a meeting with all Hatchery

operators in Public and Private field of the State and taken measures to ensure quality of the seed.

18. Insurance for Aquaculture

As per G.O. (Ord) No.223/09/F&PD dated 6.4.2009 accorded sanction to introduce crop insurance for farmers against flood, disease and natural calamities with the support of Insurance Company. The Oriental Insurance Company agreed to take up insurance scheme and accordingly the scheme implemented under Matsya Keralam programme.

19. Link with Financial Institution

To ensure bank loans to the farmers coming under Matsya Keralam, discussions were conducted with nationalized banks. The State Bank of Travancore agreed the project and they issued circular to its branches to take up the programme and to provide loans to the farmers.

20. National Institute of Fisheries Administration and Management (NIFAM)

Human Resource Development Programmes (HRDP) will be organised under Matsya Keralam project such as (a) Resource person's training programme, (b) Farmer's training programme, (c) Entrepreneurship development programme and (d) Organisation of study tours for farmers. It is decided the resource persons and farmers training programmes will be organised with the funding support from National Fisheries Development Board (NFDB) through NIFAM.

21. Link with medias - Prasar Bharati (All India Radio), Doordarsan and Asia net etc.

Wide publicity has given about Matsya Keralam project to aware the public through all News Papers and visual Medias. Apart from that, Asianet channel has telecasted an exclusive episode (30 minutes) through 'Kissan Krishideepam' programme. Through 'Krishi Darsan' programme in Doordarsan also telecasted an exclusive episode (30 minutes) phoning programme about the scheme.

Prasar Bharati (All India Radio) has broadcasted a 30 episode 'Krishi Padam Series' of half an hour duration in every Tuesday and Friday related with the culture methods in Matsya Keralam project through

'Vayalum Veedum' programme with the title 'Matsya Keralam Manonja Keralam'.

The leading News papers and exclusive publications for Agriculture, namely 'Karshkasree' and 'Kerala Karshakan' etc. published the success stories of Matsya Keralam.

22. Link with the Sea food Exports Association of India

For getting better price and marketing assistance to Matsya Keralam farmers, special effort has been taken to link the farmers with the Sea Food Association of India through MPEDA.

First phase of Matsya Keralam at a Glance

First phase of Matsya Keralam started on 16.09.2008. Survey and Technical survey completed on October and seeding started on 20.11.2008. Seeding process completed by 31.03.2009.

Aimed Target during first phase was as follows.

Sl.No	Scheme	Target
1	Local bodies to be selected for 1 st phase	100 Nos.
2	Formation of Fish Farmer's Club	350 Nos.
3	Targeted area during 2008-09	1000Ha
4	Shrimp culture	1000 Ha
5	Mussel Farming	150 units
6	Fin fish culture	100 units
7	Crab culture	100 units
8	Insurance scheme	1000 Ha
9	No. of beneficiaries to be selected	1500 Nos.
10	Economic benefit to the farmers through culture	Rs.10 Crores

The achievement of the project during first phase seen amazing result especially in shrimp farming and mussel farming. 101 Local bodies has taken up the project of 1st phase and 634 Fish Farmers Clubs formulated and 768 Aquaculture Co-Ordinators were selected all along the State by the Local Self Governments. Other achievements are shown below.

A. Shrimp Culture

Sl.No	Name of District	No.of LSG implemented	No.of beneficiaries	Area stocked in Ha	No. of seed stocked in lakh

LOCALBODY WISE HARVEST DETAILS OF FIRST PHASE

'Matsya Keralam' project envisaged implementing eco-friendly and hence total eradication of pond was not recommended. Modified traditional method and additional number of seed stocking in Pokkali fields were recommended. The quality of shrimp seed distributed to the farmers was ensured through PCR Tests. Stocking density was also fixed in the culture. Above to the number of shrimp seed supplied free of cost to the farmers, they additionally stocked seed to compensate the balance portion of stocking density. Since the programme was implemented eco-friendly, not only shrimp but other valuable species also caught from culture ponds. The consolidated harvest details of shrimp shown below.

1. THIRUVANANTHAPURAM - Average price obtained Rs. 210/Kg

Sl.No	Name of Local body	Total No. of farmers	Total area stocked (in Ha)	Total weight obtained (rounded in Kg)

'Matsya Keralam' – Administrative Sanction

GOVERNMENT OF KERALA

Abstract

Fisheries and Ports Department – 'Matsya Keralam' Project –
Administrative Sanction accorded – Orders Issued.

FISHERIES & PORT © DEPARTMENT

G.O. (MS) No.37/08/F&PD. Dated, Thiruvananthapuram, 28-6-2008

Read: - (1) Lr.No.C1/12211/06 dated 25-9-2007 from Director of Fisheries, Thiruvananthapuram.
(2) Lr. No.C1-11146/07 dated 21-1-2008 from the Director of Fisheries, Thiruvananthapuram

ORDER

As per the letters read above the Director of Fisheries submitted the project proposal 'Matsya Keralam' and requested to accord Administrative Sanction for the project. "Matsya Keralam" is an integrated project for the development of Inland Fisheries and Aquaculture, ensuring the support of Local Self Governments proposed to be implemented in 14 districts of the State for the three year period from 2008-09 to 2010-2011.

2. The project proposal 'Matsya Keralam' is prepared for the utilization of the unspent balance available with Fish Farmers' Development Agencies and Brackish Water Fish farmers' Development Agencies. The total outlay of the project is Rs.71.1565 crores and out of that, Rs.24.00 crores earmarked as subsidy and subsidy for all fresh farmers will be met from agencies as per the coastal norms and State Govt. norms. The rate of subsidy is calculated in a tapering manner for the farmers continuing the farming during second and third years, which will be met from the funds earmarked as special funds from State Govt. and also from local bodies.

3. The project proposes to bring a total of 3750 ha freshwater pond area and 2250 ha padasekharams under the fold of freshwater aquaculture over a period of three years. In the brackish water sector 3700 ha will be brought under shrimp farming.

4. The specific objectives of the project are the following;

- a) To diversify aquaculture for enhancing fish production from inland freshwater/brackish water areas.
- b) To increase inland fish production from the present level of 75,000 mt. to 1,00,000 mt. and to improve the productivity of inland/brackish water aquaculture
- c) To create new employment opportunities in rural areas through the development of inland and brackish water aquaculture.
- d) To increase export of fish and fish products.
- e) To increase the per capita availability of fish.
- f) To develop a well designed marketing system for aquaculture products.
- g) To create new employment opportunities through value addition of aquaculture products.

5. The major components of the proposal are the following:

- i) Programmes for diversification of freshwater aquaculture in inland fisheries.
- ii) Programmes for diversification of brackish water aquaculture.
- iii) Programmes for the development of infrastructure in inland fisheries.
- iv) Programmes for the development of extension and training.
- v) Programmes for marketing support.

6. The project envisages additional fish production of 25,000 tons, fresh water prawn production of 4,500 tons, shrimp production of 3700 tons and shell on mussels production of 450 tons which will fetch additional earning of Rs.270 crores. 6500 lakhs man days are expected to be generated in the inland fisheries sector with 10000 families as potential beneficiaries. Further fish availability in the domestic market will be increased with increase in per capita fish consumption. The increase in fresh water prawn production will fetch additional Rs. 20500 lakhs of foreign exchange to the country. The fish culture of larvivorous forms will be environment friendly and can go a long way in controlling mosquitoes thereby resulting in reduction of mosquito propagated diseases.

7. The implementation of the project is with the involvement of the following agencies;

- (i) Agency for Development of Aquaculture in Kerala (ADAK)
- (ii) Brackishwater Fish Farmers Development Agency (BFFDA)
- (iii) Fish Farmers Development Agency (FFDA)
- (iv) Agency for Fisheries Resource management (FIRMA)
- (v) Matsyafed
- (vi) Coastal Development Agency (CDA)

8. The funding pattern proposed for the project is as follows: -

(Rs. In Lakhs)

Year	Source of Fund in lakhs			
	FFDA/BFFDA	State Govt.	LGS	Total
1 st Year 2008-09	1011.03	Nil	Nil	1011.03
2 nd Year 2009-10	394.435	147.9125	147.9125	690.26
3 rd Year 2010-11	402.885	147.9125	147.9125	698.71
TOTAL	1808.35	295.825	295.825	2400

9. The project envisages incorporation of an insurance scheme also for farmer against flood, disease and natural calamities with the support of insurance company with a built in element of subsidy for premia which will also be in a tapering manner from the first to third year.

10. The agencies involved in the project will be undertaking the execution of schemes as per the direction of a State Level Steering Committee (SLSC) which will decide the schemes to be implemented by each agency and which will re-allocate the fund already with the FFDA's and BFFDA's to the above agencies after ascertaining the requirement of each agency. ADAK will act as the Nodal Agency in keeping the accounts of the project.

11. Govt. have examined the matter in detail and are pleased to accord Administrative Sanction for implementation of the project 'Matsya Keralam' on the above lines limiting the State Share of the project cost amounting to Rs.2.958 crores for the last two years 2009-10 &2010-2011

together for components such as Fresh water fish culture, Paddy fish culture, Insurance scheme for farmers, Shrimp farming in Pokkali, Establishment of extension service units and Establishment of Farmers club and utilizing the budget provision of ADAK for implementing components such as fresh water fish culture, paddy fish culture, insurance scheme for farmers and shrimp farming in Pokkali fields.

12. The project will be implemented with the existing manpower only without creation of additional posts. However for the extension work Govt. are pleased to accord sanction for the creation of 30 posts of Fisheries Extension Officer on contract basis for 3 years at a consolidated remuneration of Rs. 10,000/- per month. The appointees against these posts will not have any right of absorption in the service or any sort of permanency.

By Order of the Governor,
Dr.P.Prabakaran
Additional Chief Secretary to Govt.
